"*Currently working as a Frontend Developer with 2.5 years of experience in frontend development. I have worked on 6 projects in past 2.5 years. Actively looking for suitable opportunity where I can explore more cutting-edge technologies and a better workplace there by being a part of success of the organization.*"

WORK EXPERIENCES

Software Developer - *Robosoft Technologies, Udupi | Aug 2018 – Jan 2021*

My role in Robosoft was to be a Front-end Developer where I could put my time and ideas in huge team providing software service. My responsibilites here was: Planning and completing the task which was assigned and being with the team during critical stages. Giving daily reports of front-end development to client.

PROJECTS

Axis Mutual Fund Investor Application - *at Robosoft Technologies*

It's a hybrid application built with Angular 8 + Ionic 4 framework for web, Android and iOS. It's an app for the mutual fund investors wherein the user can invest and watch the funds they have invested in. The user can do all the transactions which a normal Mutual Fund user can do. Currently Android is live in Play store and IOS in App Store. But web development in going on. Also I work to fix the issues of the app in production.

Jeeth (ITI Bank) - *at Robosoft Technologies*

It's a hybrid application built with Angular 8 + Ionic 4 framework for web, Android and iOS. It's an app for the mutual fund investors wherein the user can invest and watch the funds they have invested in. The user can do all the transactions which a normal Mutual Fund user can do. Development is going on.

Glam - *at Robosoft Technologies*

It is a musical website. User can group songs and edit as well. I worked in this project post it went live. My job was to fix issues in production.

Huffy Byke - *at Robosoft Technologies*

It is an application which helps to find trails, service centres and restaurant in the area using GPS. Both Android and IOS applications are there in play store/ app store. I worked on CMS website which is built with Angular 6. CMS is for Huffy Byke internal operations.
